## **Environment Education**

Our School G.D Goenka Public School, Swarn Nagri, Greater Noida has been in constant support with nature projects in the community and around the city. With the pandemic Covid 19 locking every one indoors and disrupting the education system with only gadgets at our disposal, the school made use of the online platform and used interactive mediums to learn about nature. The impact of pollution on the environment. How the lock down helped in reviving Mother Earth. The students of grade II presented a special assembly on **Earth Day, April 22, 2020** where they showcased poems on how to save Earth and a pledge was taken by everyone to keep surroundings clean. Grade III to V made posters on '**Save Earth**' and highlighted the importance of the 3R's (Reduce, Reuse and Recycle).

On **World Environment Day June 5, 2020**, the school principal gave an opening speech giving insight to the importance of protecting our natural resources and environment. Compulsory projects for all students of grade IX to XII were planned to know and care about the environment. How a little step can make a big change. In the '**Infinity-an Interschool Techno fest**' grade I and II made posters on '**My Blue Planet**' on Water Conservation and I and '**I am Precious**' on water pollution. Grade VI to VII did a symposium on **Global Environmental Issues- Innovative Solutions of Reuse of Wastes .Mode'le de travail (Working/ Virtual Model)** was part of Grades IX to XII where they presented work on waste management and resource management. Throughout the year these core values of making little changes were incorporated by holding workshops , quizzes, debates and enactments. Discussions and debates, were conducted in online classes, were on '**What is more important, saving the environment or technological advancement at the expense of the Environment**'. The school incorporated the idea of '**Each one can participate by stopping the use of plastic bags; stop wasting food, start using public conveyance to save fuel and to start recycling. For a greener tomorrow, each one needs to do his or her bit**'
